

# VAG Pass-Thru

Autologic 2016

Disclaimer – This information is provided as a guide only and subject to change by the vehicle manufacturer. Autologic cannot be held responsible for any errors regarding manufacturer information that leads to diagnosis or programming malfunctions. This document is regularly updated so please check for latest version.

The website images belong to the property owner and are being used for not for profit information purposes. E&OE.

To be up and running with VAG Pass-Thru these are the following steps that need to be carried out:

1. Register with Erwin (With any of the 4 brands, as 1 login covers all brands)
  - Page 4
2. Apply for an OrgID/Global User ID (This will be your dealer number with VAG)
  - Page 6
3. Apply for a GeKo form/licence security tag (This is your security tag that allows you to access the VAG servers)
  - Page 8
4. Purchase ODIS DVDs (This is the software that needs to be installed onto your computer) or downloaded within Erwin
  - Page 11
5. Once you have all the above in your possession you can generate the ODIS License's for each brand, and then install the software to your device
  - Page 15

## Pass-Thru Guide

### Minimum Requirements

- Microsoft Windows 7 (64 bit only)
- Any dual core processor with 1GHz minimum
- At least 512MB of RAM
- 800x600 screen resolution (or better)
- At least 80GB of Hard Disk space

### Approved VCI's

- VAS 5055
- VAS 5054A
- DA J2534
- Drew Technologies device

# Registering on erWin

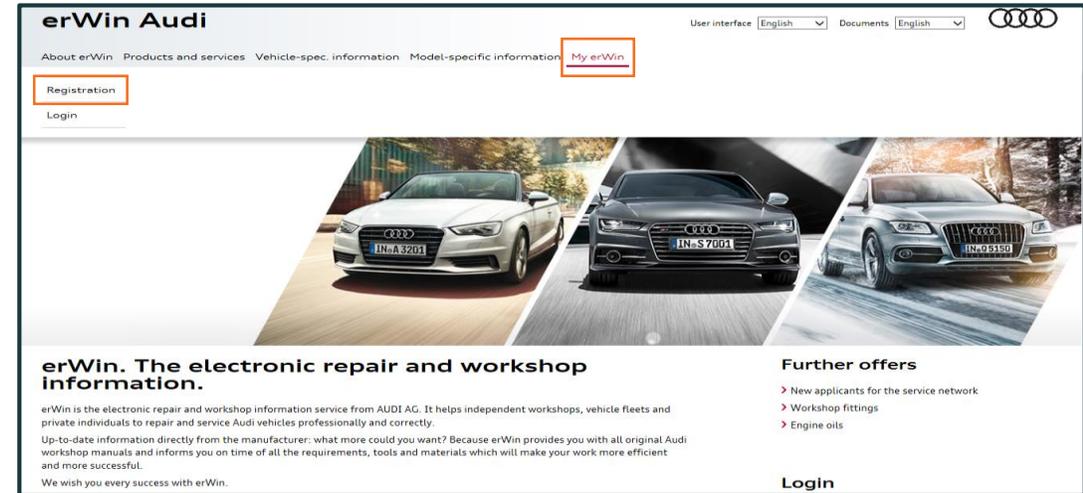

- You can register with any of the 4 brands on the erWin site, as one log in covers all brands.
- There is no charge for registering.

Brand	URL
Volkswagen	<a href="https://erwin.volkswagen.de">https://erwin.volkswagen.de</a>
AUDI	<a href="https://erwin.audi.com">https://erwin.audi.com</a>
SEAT	<a href="https://erwin.seat.com">https://erwin.seat.com</a>
SKODA	<a href="https://erwin.skoda-auto.cz">https://erwin.skoda-auto.cz</a>

# Registering on erWin

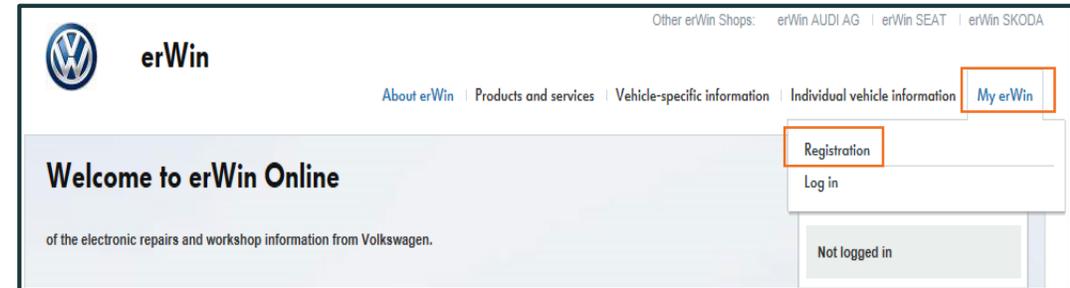

## 1. Audi website

1

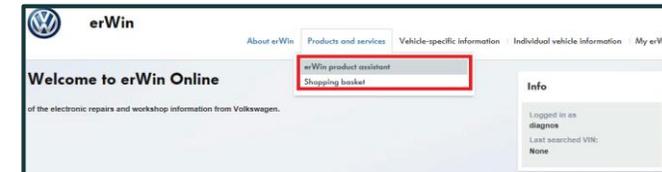

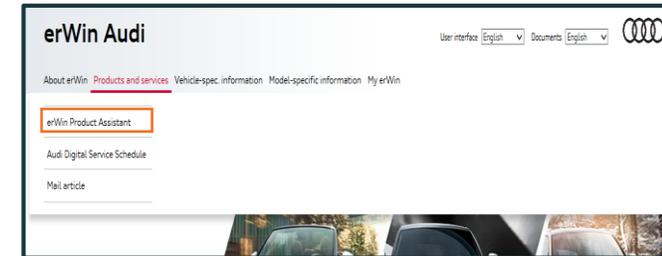

## 2. VW, SEAT, SKODA website

2

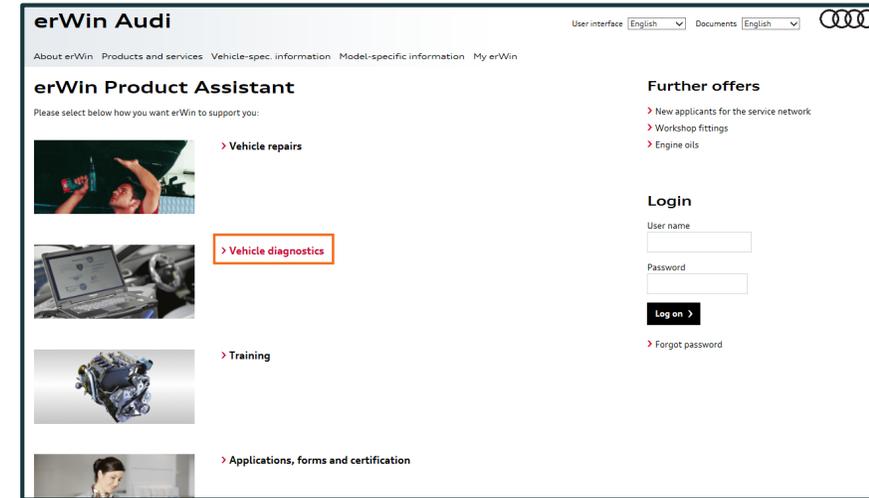

# Applying for an Org ID/Global User ID

**Once you have registered, you will need to apply for an Org ID.** This will be your workshop number (like a dealer number) and will cover all 4 brands. This information is available on erWin, via the 'erWin Product Assistant' once the registration process is completed.

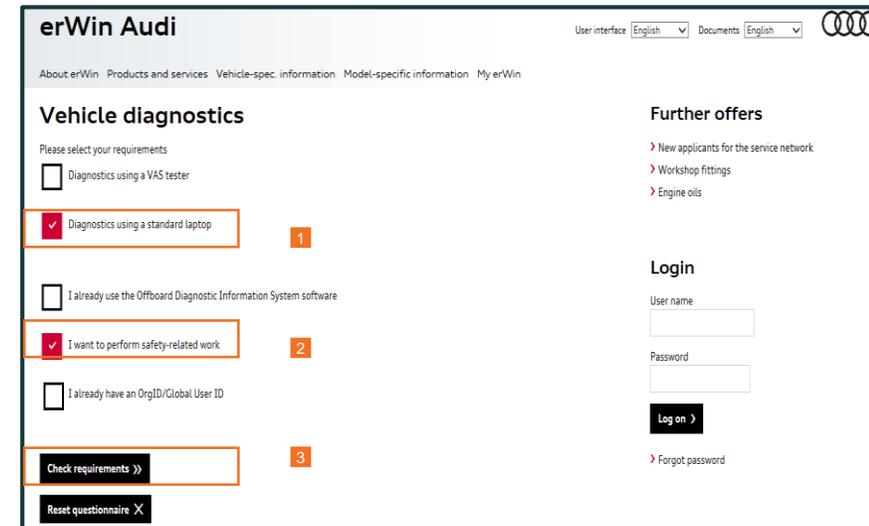

# Applying for an Org ID/Global User ID

1. Select 'Vehicle diagnostics'

2. Tick the boxes 'Diagnostics using a standard laptop' (1) and 'I want to perform safety-related work.' (2) Then click on the 'Check requirements' option (3).

3. Click on the top option 'Apply for an OrgID/Global User ID'

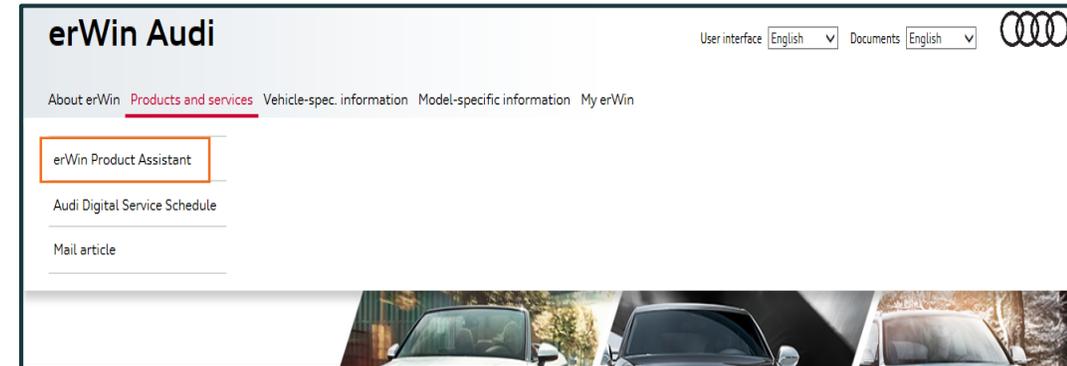

4. Fill in the form and click on 'apply'

# Applying for the GeKo Form

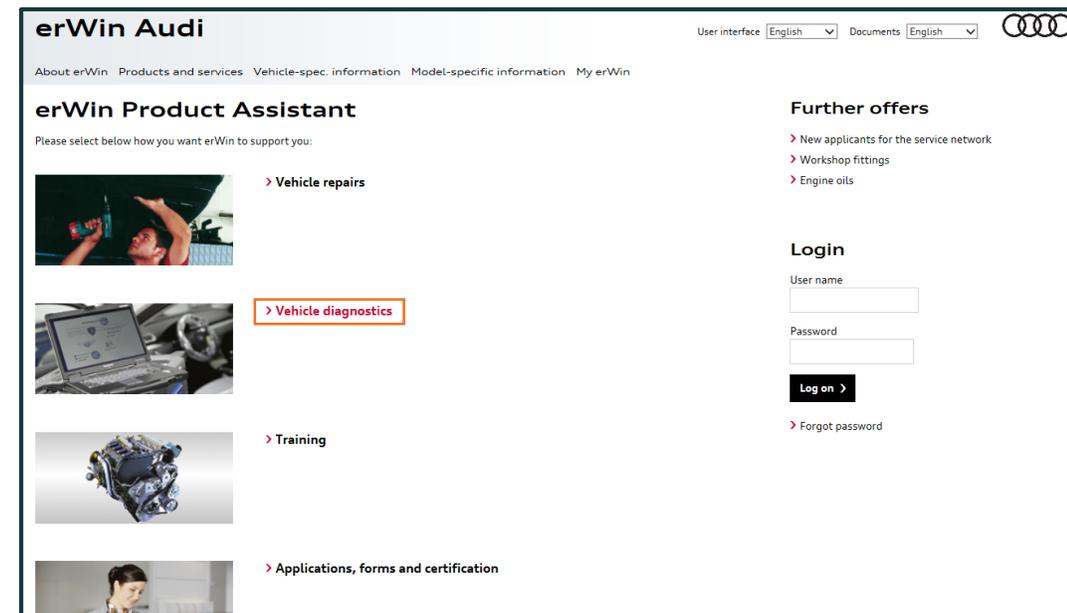

- GeKo (security and component protection) is a feature that is available to users with the online connection of the Offboard Diagnostic Information System (ODIS). It allows teaching of engine immobiliser components, (e.g. instrument clusters, engine control unit), keys and component protection (e.g. air conditioner, navigation, etc.) of the vehicle.
- The GeKo form can be obtained via emailing: [Independent.Workshop@vwg.co.uk](mailto:Independent.Workshop@vwg.co.uk) (Or relevant country importer variant)

# Applying for the GeKo Form

1. Log on to erWin and select 'erWin Product Assistant' on required website

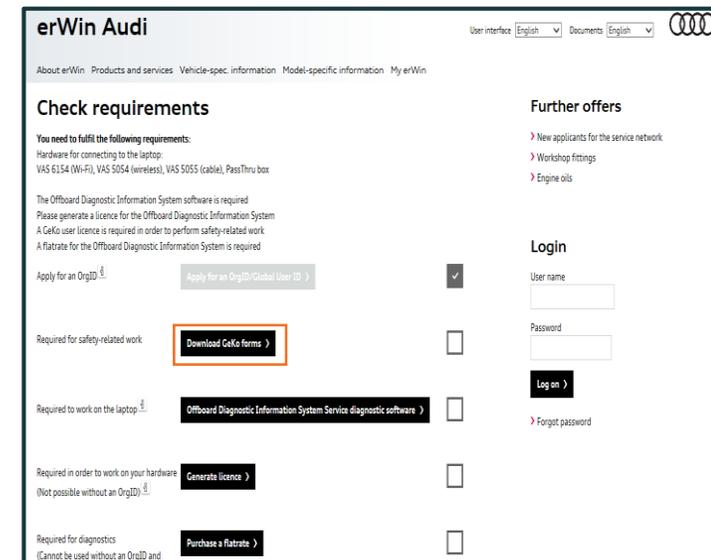

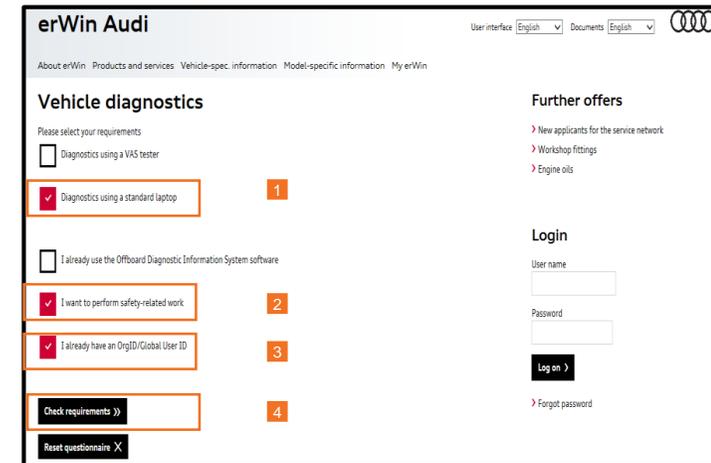

2. Select 'Vehicle diagnostics'

# Applying for the GeKo Form

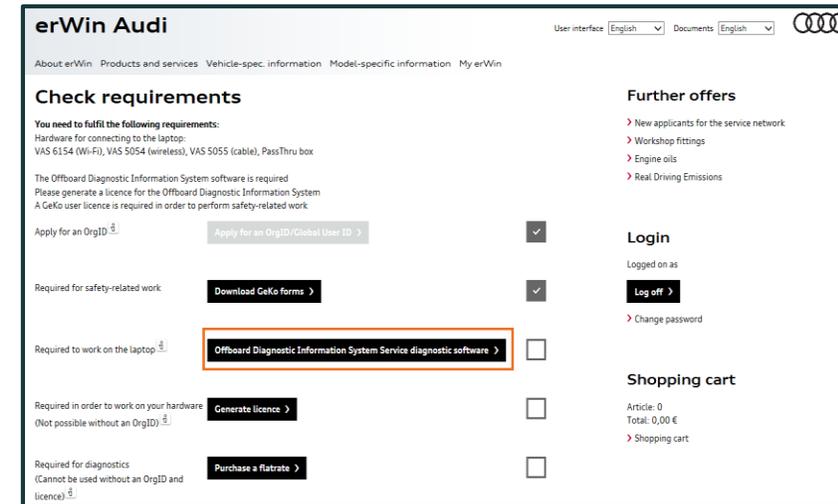

3. Select 'Diagnostics using a standard laptop' (1)
4. Next select 'I want to perform safety-related work' (2)
5. Select 'I already have an Org ID / Global User ID' box (3)
6. Once you have selected these items, click on the 'Check requirements' button.
7. Click 'Download GeKo forms' option.
8. Click on 'Importer Directory' at the bottom of the page and email the relevant address for your country importer. Additional contact information for importer is also available here.

# Purchasing ODIS DVDs

1. Select the 'Offboard Diagnostic Information System (ODIS) Service diagnostic software' option.

(This is on the same page you were just on to select 'Download GeKo forms,' but is the option just below.)

## Offboard Diagnostic Information System Service

### Download the Offboard Diagnostic Information System software

You have the option of downloading the Offboard Diagnostic Information System software. Please note that downloading via the FTP is enabled in your firewall. The software is broken down into the following packages:

Installation instructions:  
> UMB\_Quickguide\_V1\_3\_PDF-Paket.zip (52 MB)

Software installation:  
> OffboardDiagSetup-Service\_3\_0\_3.exe (562 MB)

Diagnostic data:  
> Postsetup\_ODIS\_Service\_3\_0\_3.zip (12667 MB)

Flash data:  
> Flashdaten\_Audi\_2016-06-07.zip (8172 MB)

### Order software on a data carrier

You can order the Offboard Diagnostic Information System software on a data carrier  
Simply click "Order" at the bottom of the page.

**Order software on a data carrier**

> Shopping cart

# Purchasing ODIS DVDs

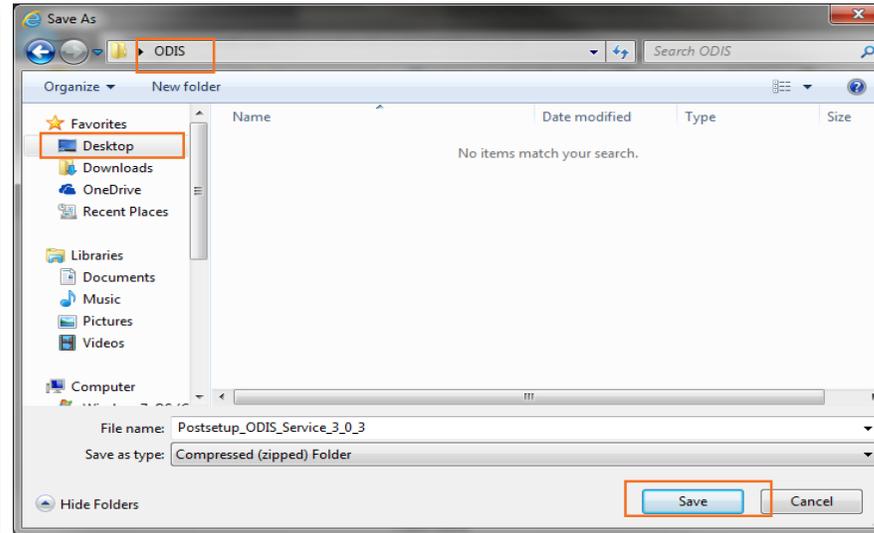

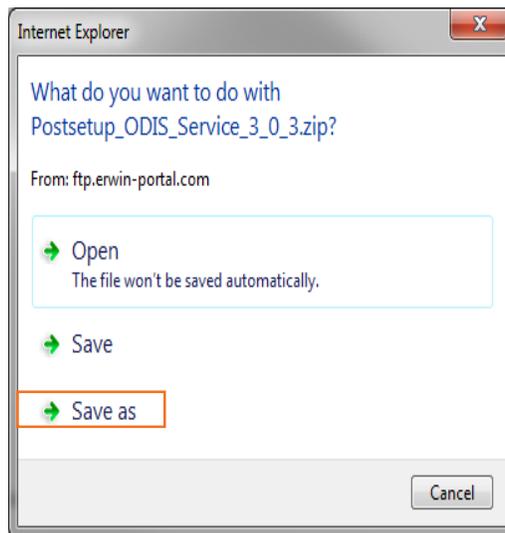

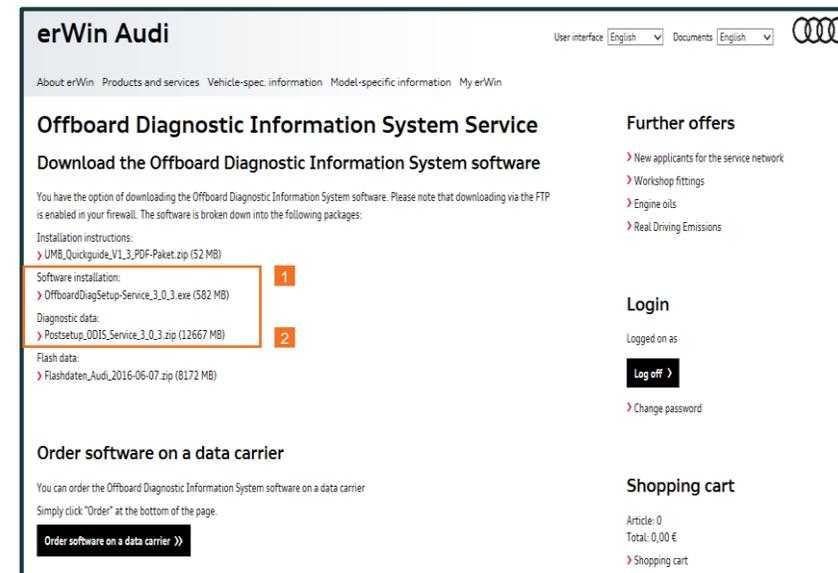

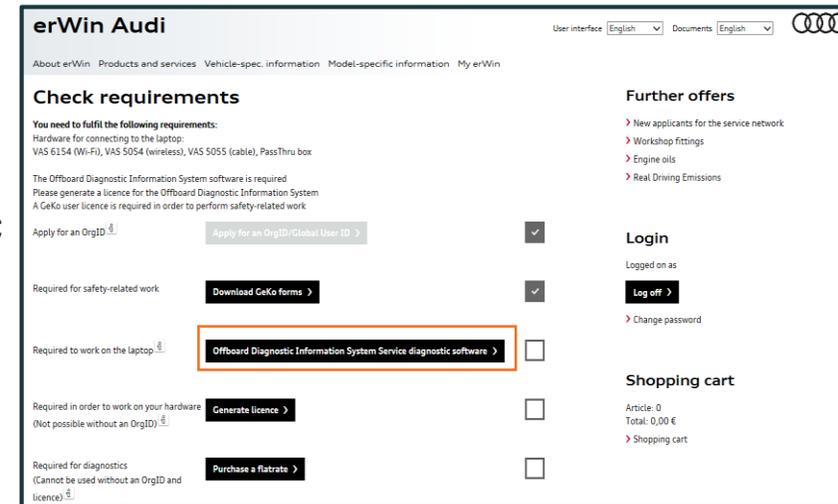

3. Check that you have ordered just one copy of software (1)
4. Read and then accept the general Terms and Conditions (2)
5. Select 'Buy' (3)
6. You will be required to supply your credit card details on the next screen.
7. Select 'Pay Now' on next screen

The screenshot shows the 'erWin Audi' shopping cart page. At the top, there are navigation links for 'About erWin', 'Products and services', 'Vehicle-spec. information', 'Model-specific information', and 'My erWin'. A 'Help' icon is also present. The main heading is 'Shopping cart' with a sub-heading 'Shopping cart - Mail articles'. Below this, a note states: 'As erWin can send you articles anywhere in the world, the delivery time depends on your location and may take a few days. The delivery costs per shipment are €5 within Europe and €10 outside Europe.' The cart contains one item: 'Offboard Diagnostic Information System Software (3.0.3)' with a price of 13,00 €. A 'Delete' link is next to the item name. Below the item, there is a 'Quantity' field set to '1' and a 'Re-calculate' button. A checkbox is checked, indicating acceptance of the 'general terms and conditions from erWin online'. A 'Buy >>' button is at the bottom right of the cart area. To the right of the cart, there are sections for 'Further offers' (listing 'New applicants for the service network', 'Workshop fittings', 'Engine oils', and 'Real Driving Emissions') and 'Login' (showing 'Logged on as' and a 'Log off >' button, with a 'Change password' link below).

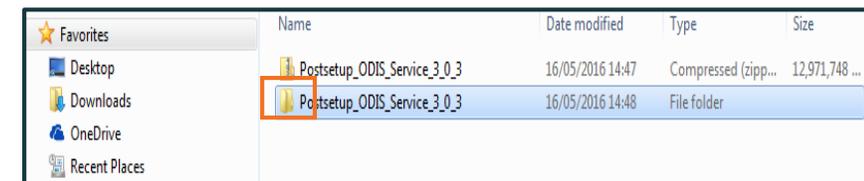

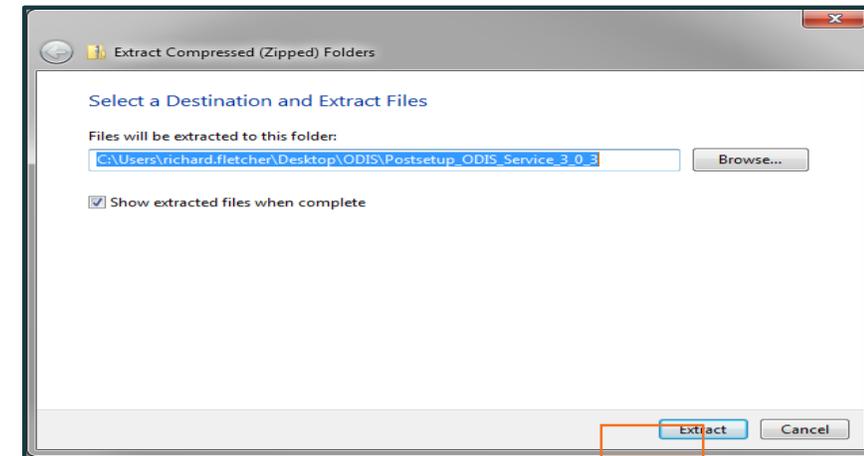

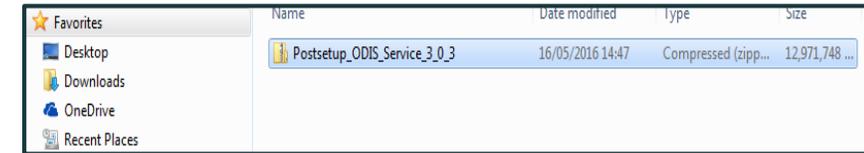

# Downloading ODIS from ErWin

1. Create a new folder on your desktop. (right click anywhere on the desktop and select New > Folder) call it ODIS
2. Back on the Check requirements page, select the Offboard Diagnostic Information System Service diagnostic software
3. You will need to download 2 options: Software installation (1) and Diagnostic data (2). Select 'Save As' and save them both into the ODIS folder on your desktop.

# Extracting the 'zip' folder

1. Once both files have downloaded to your ODIS folder, you will notice the Postsetup one is a Zip folder. You will need to extract this folder. Right click on the folder and select Extract all.
2. Then select Extract
3. Once extracted there will be a file with the same name but without a zip on it.

# Ordering and Installing an ODIS License

- The ODIS licence must only be installed on the PC which is going to be used for diagnostics.
- This is required for each of the brands you wish to use ODIS for and is acquired on the relevant erWin brand sites.
- Create a new sub folder in your ODIS folder on your desktop and call it licences.
  1. To start the process, you need to go back to the erWin Product Assistant tab and select 'Vehicle Diagnostics' again (page 8)  
Note: there are variations between Audi and VW, Seat, Skoda websites).
  2. This time, you will also need to select the box saying 'I already use the Offboard Diagnostic Information System software' (1)
  3. Then select 'Verify Requirements'

Name	Date modified	Type	Size
Postsetup_ODIS_Service_3_0_3	21/07/2016 16:56	File folder	
OffboardDiagSetup-Service_3_0_3	16/05/2016 14:51	Application	596,578 KB
Licences	02/02/2016 13:33	File folder	

### Vehicle diagnostics

Installation instructions:  
> UMB\_Quickguide\_V1\_3\_PDF-Paket.zip (52 MB)

Please select your requirements

Diagnostics using a VAS tester

Diagnostics using a standard laptop

I already use the Offboard Diagnostic Information System software 1

I want to perform safety-related work

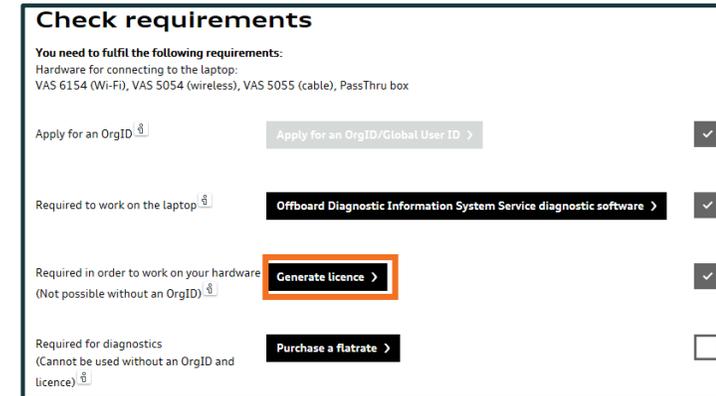

I already have an OrgID/Global User ID

**Check requirements >>**

**Reset questionnaire X**

# Ordering and Installing an ODIS License

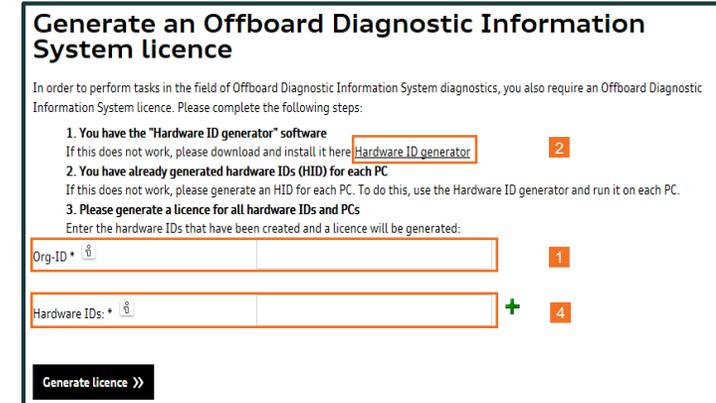

4. Select 'Generate licence'
5. To generate a licence, enter your relevant OrgID for the brand site you are on (1) then select 'Hardware ID generator' (2)
6. Once the pop up boxes appear select 'Run'.
7. The Hardware Key will be shown along with a message. Click 'OK' (3) Right click in the Hardware ID box and select paste (4)

**Check requirements**

You need to fulfil the following requirements:  
Hardware for connecting to the laptop:  
VAS 6154 (Wi-Fi), VAS 5054 (wireless), VAS 5055 (cable), PassThru box

Apply for an OrgID <sup>ⓘ</sup>	Apply for an OrgID/Global User ID >	<input checked="" type="checkbox"/>
Required to work on the laptop <sup>ⓘ</sup>	Offboard Diagnostic Information System Service diagnostic software >	<input checked="" type="checkbox"/>
Required in order to work on your hardware (Not possible without an OrgID) <sup>ⓘ</sup>	<b>Generate licence &gt;</b>	<input checked="" type="checkbox"/>
Required for diagnostics (Cannot be used without an OrgID and licence) <sup>ⓘ</sup>	Purchase a flatrate >	<input type="checkbox"/>

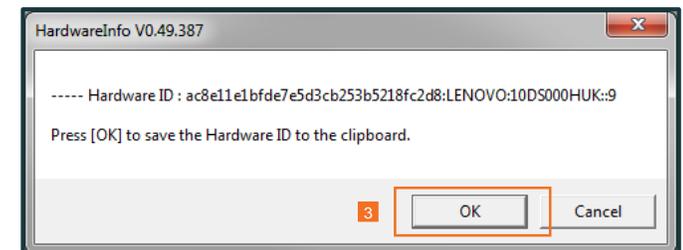

**Generate an Offboard Diagnostic Information System licence**

In order to perform tasks in the field of Offboard Diagnostic Information System diagnostics, you also require an Offboard Diagnostic Information System licence. Please complete the following steps:

- You have the "Hardware ID generator" software**  
If this does not work, please download and install it here [Hardware ID generator](#) **2**
- You have already generated hardware IDs (HID) for each PC**  
If this does not work, please generate an HID for each PC. To do this, use the Hardware ID generator and run it on each PC.
- Please generate a licence for all hardware IDs and PCs**  
Enter the hardware IDs that have been created and a licence will be generated:

Org-ID * <sup>ⓘ</sup>	<input type="text"/>	<b>1</b>
Hardware IDs: * <sup>ⓘ</sup>	<input type="text"/>	<b>4</b>

**Generate licence >>**

HardwareInfo V0.49.387

----- Hardware ID : ac8e11e1bfde7e5d3cb253b5218fc2d8:LENOVO:10DS000HUK:9

Press [OK] to save the Hardware ID to the clipboard.

**3**

# Ordering and Installing an ODIS License

8. Next, select Generate licence
9. Once the windows message comes up, select Save As and save this to the Licences folder in your main ODIS folder you created.
10. The file needs to be saved under:
  - a) My computer
  - b) Desktop
  - c) ODIS (folder)
  - d) Licence (folder)
  - e) Save

NOTE: You will need to change the name of the file to the brand you have just generated the licence for (1). The 4<sup>th</sup> (or the last one if not doing all brands) you do not change the name and leave it just as licence.dat

### Generate an Offboard Diagnostic Information System licence

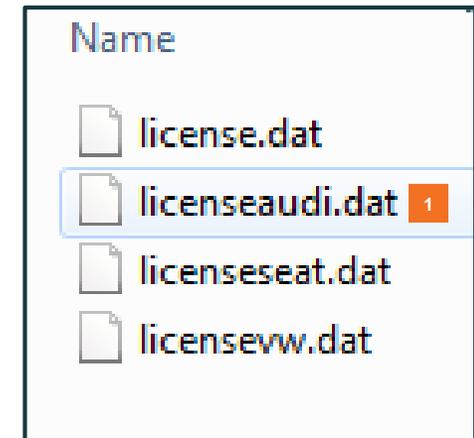

In order to perform tasks in the field of Offboard Diagnostic Information System diagnostics, you also require an Offboard Diagnostic Information System licence. Please complete the following steps:

1. **You have the "Hardware ID generator" software**  
If this does not work, please download and install it here: [Hardware ID generator](#)
2. **You have already generated hardware IDs (HID) for each PC**  
If this does not work, please generate an HID for each PC. To do this, use the Hardware ID generator and run it on each PC.
3. **Please generate a licence for all hardware IDs and PCs**  
Enter the hardware IDs that have been created and a licence will be generated:

Org-ID \*

Hardware IDs: \*  +

**Generate licence >>**

# Installing the ODIS DVD

The following requirements must be met for the installation of the Offboard Diagnostic Information System (ODIS) software:

- Operating system: Microsoft® Windows 7 (64 bit)
- CPU: at least 1 GHz, recommended 2 GHz dual core processor
- RAM: at least 512 MB, recommended 2 GB
- HDD: at least 80 GB of free space
- Graphics: at least 800 x 600, recommended 1024 x 768

Other:

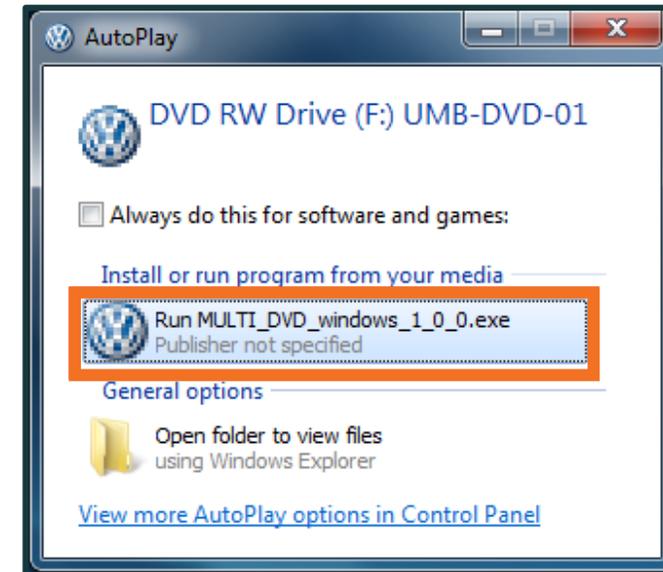

- One free USB port for the diagnostic interface
- DVD drive
- online connection

# Installing ODIS DVD

1. After receiving the DVD, please insert it into the computer's DVD drive.
2. If you have received three DVDs, please insert the first, numbered 'DVD 1/3'.

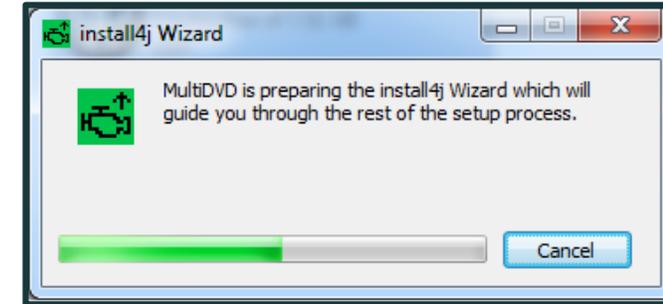

Please note: This process can take 2-3 hours to complete

3. When the AutoPlay box opens, select 'Run MULTI\_DVD\_windows...'

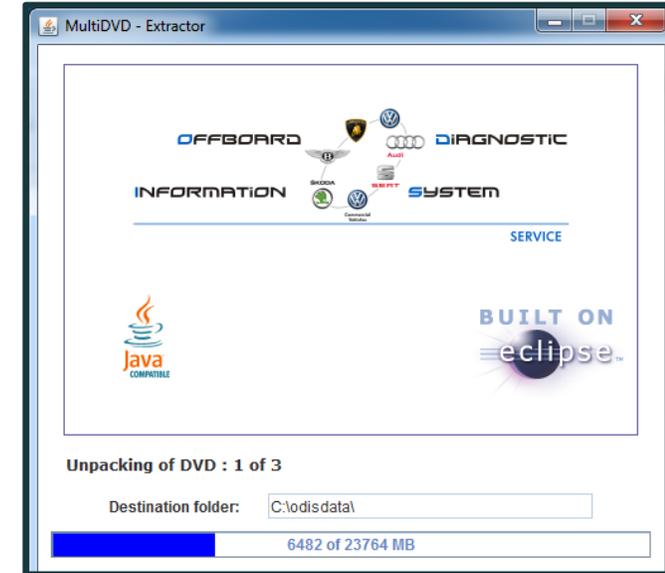

# Installing ODIS DVD

4. The installation process will begin
5. When it finishes, click 'Start unpacking'

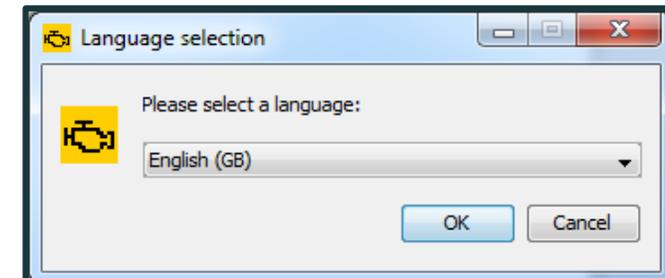

# Installing ODIS DVD

6. You will now be prompted to install DVD 2 and 3

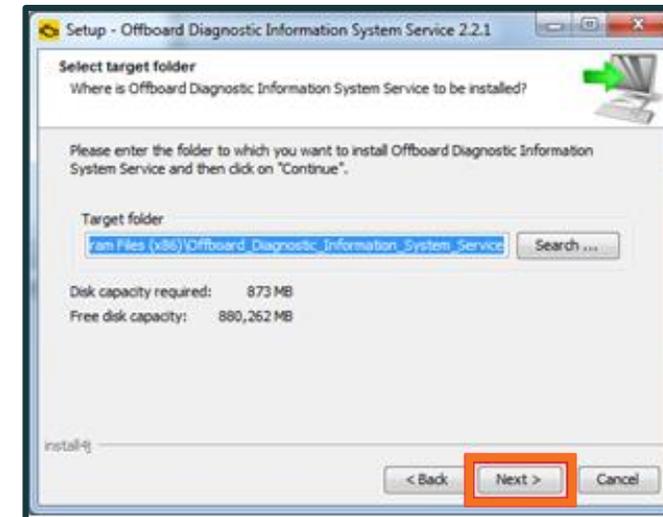

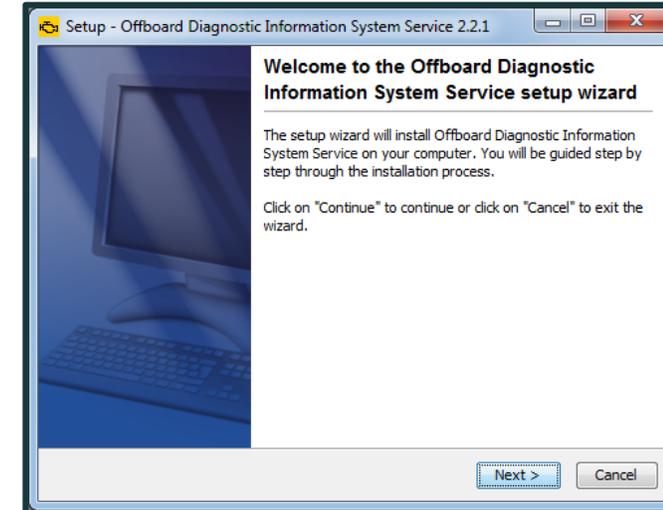

7. Select the installation language when prompted

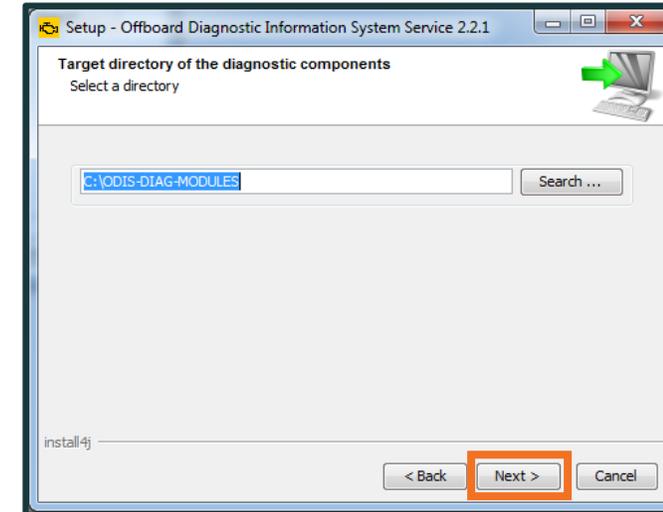

# Installing ODIS DVD

8. The ODIS set up wizard starts. Select 'Next'
9. Select the folder for the installation of the software and click next.  
Note: Additional disk space is required to install all DVDs

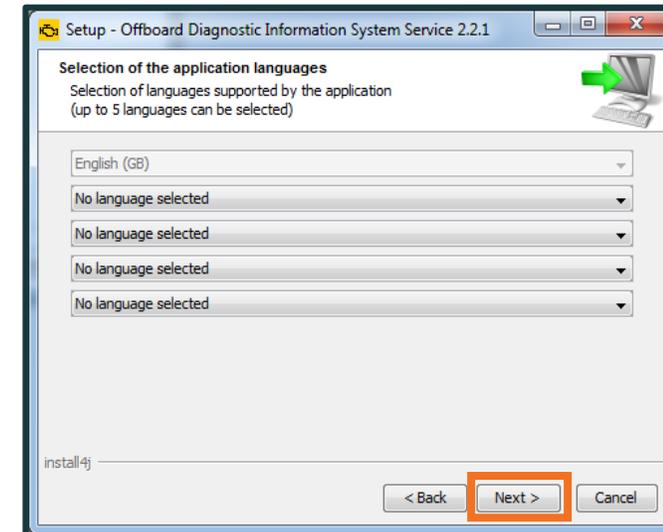

# Installing ODIS DVD

10. Select the directory for the installation of the diagnostic components.  
Select 'Next'

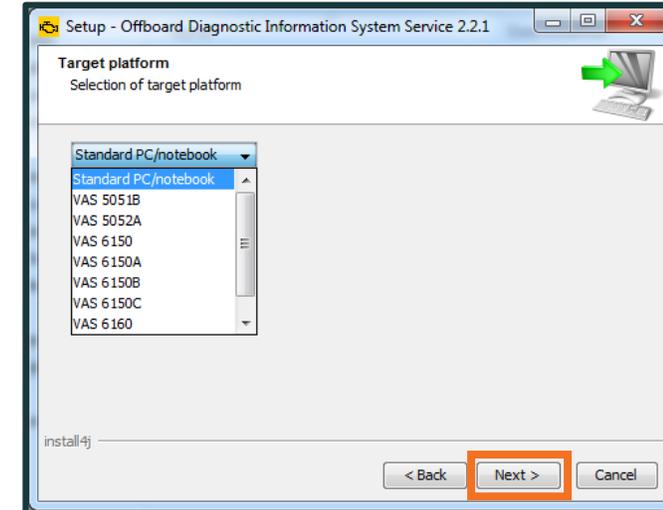

11. You can select up to 5 languages for the ODIS service, so do this now.  
Click 'Next'

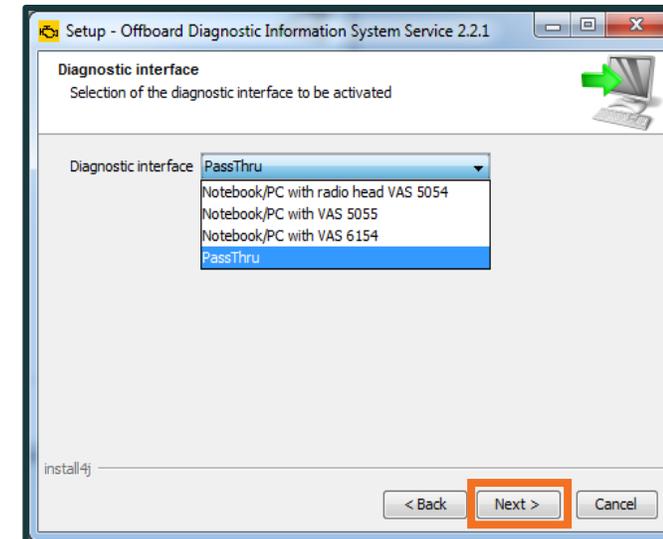

# Installing ODIS DVD

12. Select 'Standard PC/Network' on which ODIS is to be installed. Click 'Next' unless using a genuine dealer tool then select the relevant tool.

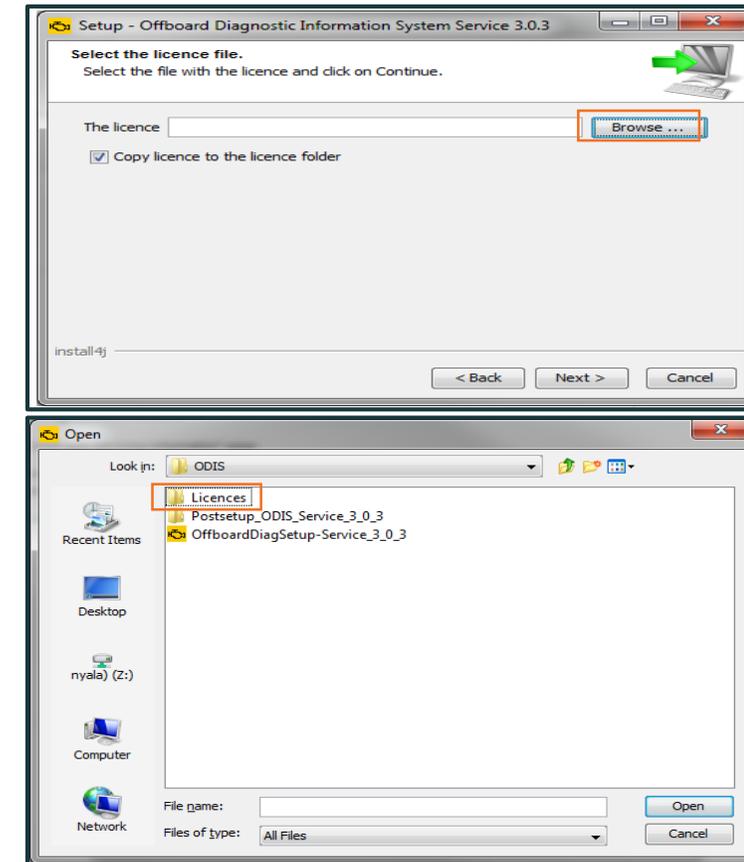

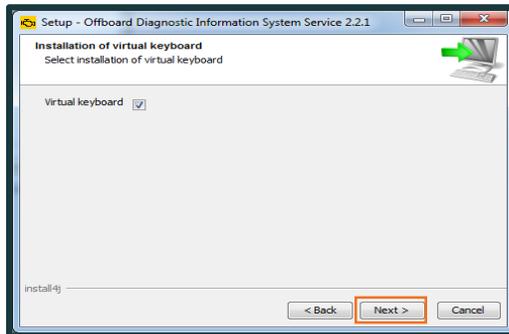

13. Select 'Pass-Thru' as the diagnostic interface you want to use. Click 'Next' unless you are using a genuine dongle then select the relevant interface.

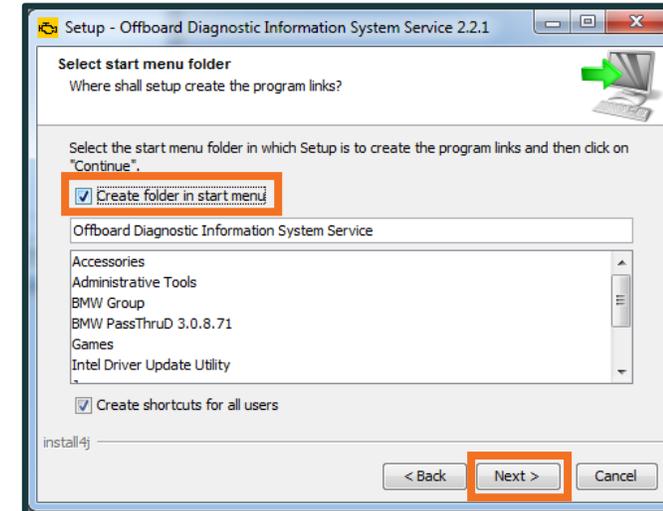

# Installing ODIS DVD

14. Select browse and select the licence file that you saved during the ODIS Ordering and Installation process. ODIS > Licences > Licence.dat
15. Tick 'Copy licence to the licence folder' and then select 'Next'.
16. For devices with a touchscreen, you can now install a virtual keyboard. This is not necessary for computers with external keyboards.

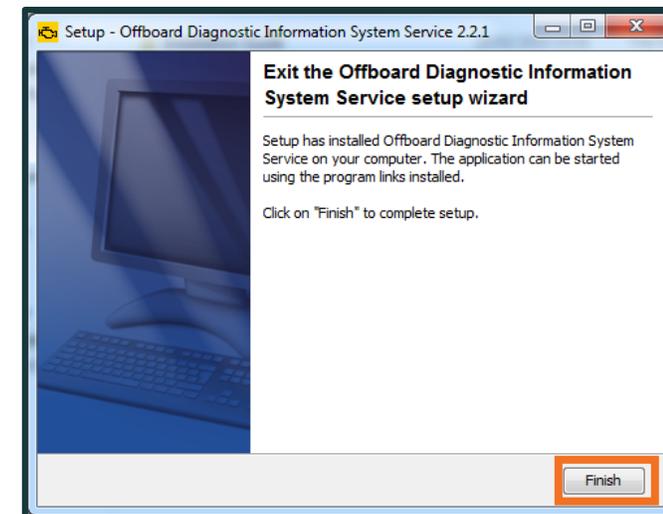

# Installing ODIS DVD

17. Tick 'create folder in start menu' and then click 'Next'

18. Wait for the installation to finish. Once ODIS is installed, click 'Finish'

# Installing Downloaded ODIS

1. Open the ODIS folder on your desktop, select the OffboardDiagSetup-Service option.

Name	Date modified	Type
Licences	02/02/2016 13:33	File folder
Postsetup_ODIS_Service_3_0_3	21/07/2016 16:56	File folder
OffboardDiagSetup-Service_3_0_3	16/05/2016 14:51	Application

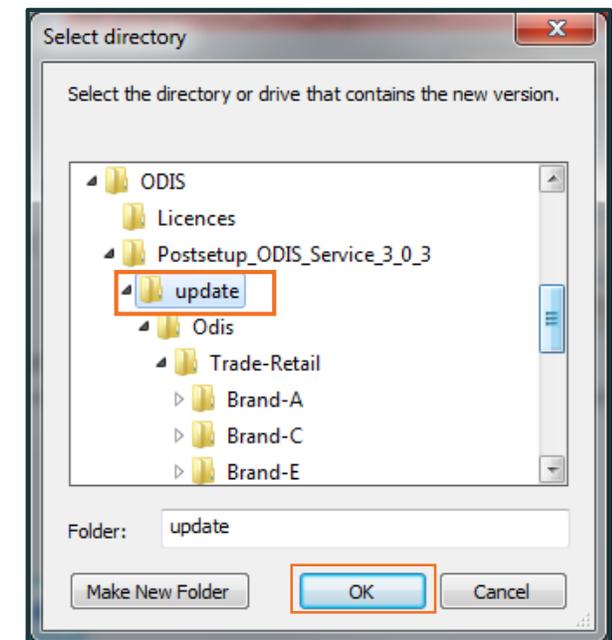

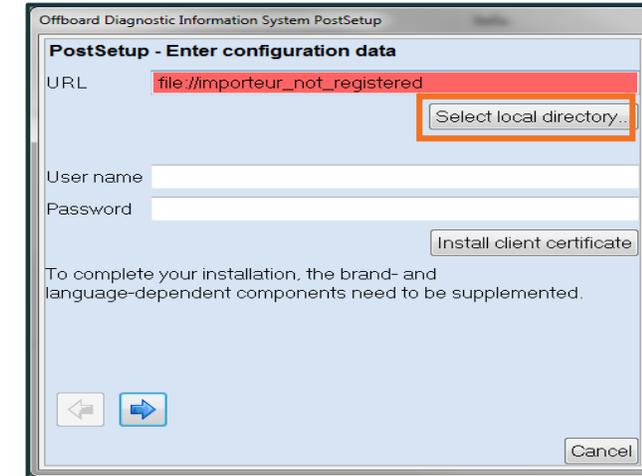

2. Follow same instructions as per DVD install (pages 20 point 7 – page 25)

# ODIS Post Setup

The post setup process installs diagnostic data based on the selection made during the installation (e.g. language/licence information).

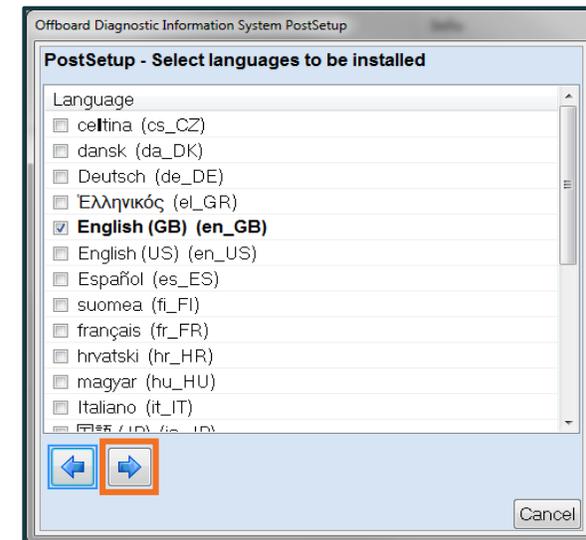

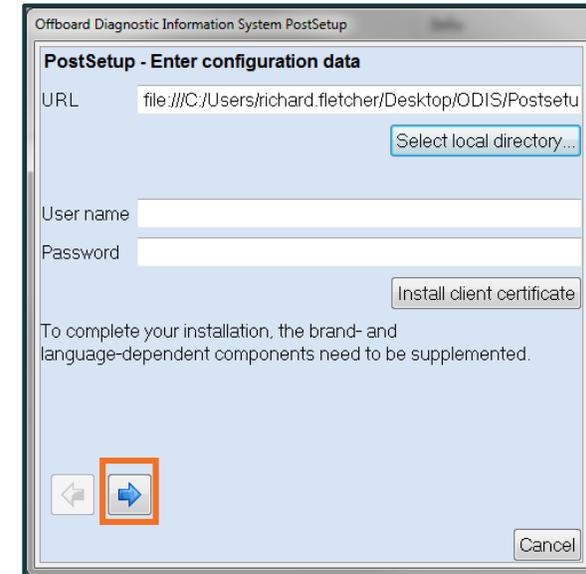

The post setup process starts automatically when ODIS Service is started for the first time.

1. Start ODIS Service.
2. Select the ODIS start Icon installed on the computer.
3. Click 'Select local directory' and select from the drop downs Desktop, ODIS, Postsetup\_ODISService, update Confirm with 'OK'

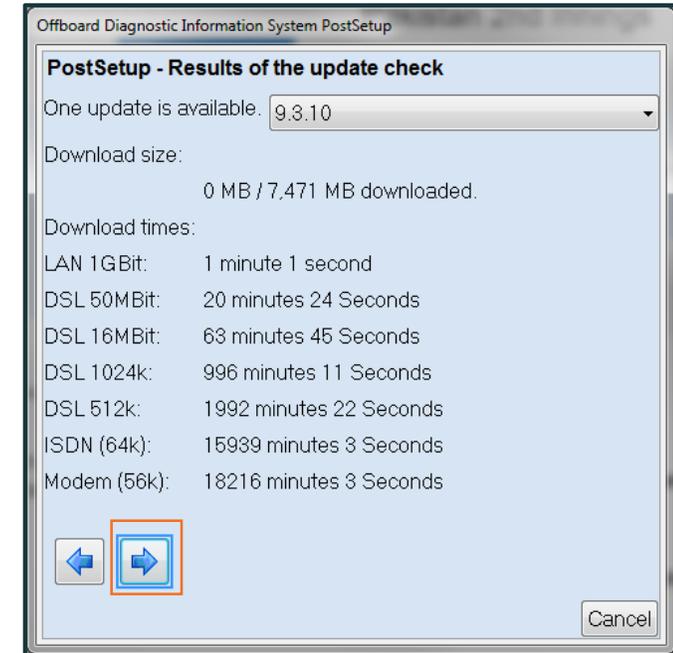

# ODIS Post Setup

4. The summary of the post setup download is displayed again. Select the forward arrow button.
5. Select the languages required and click the forward arrow once again.

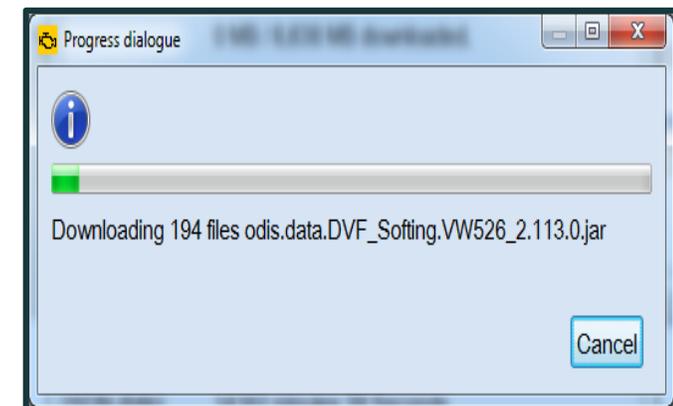

# ODIS Post Setup

6. You will now get the results of the update check. Select the forward arrow once again.

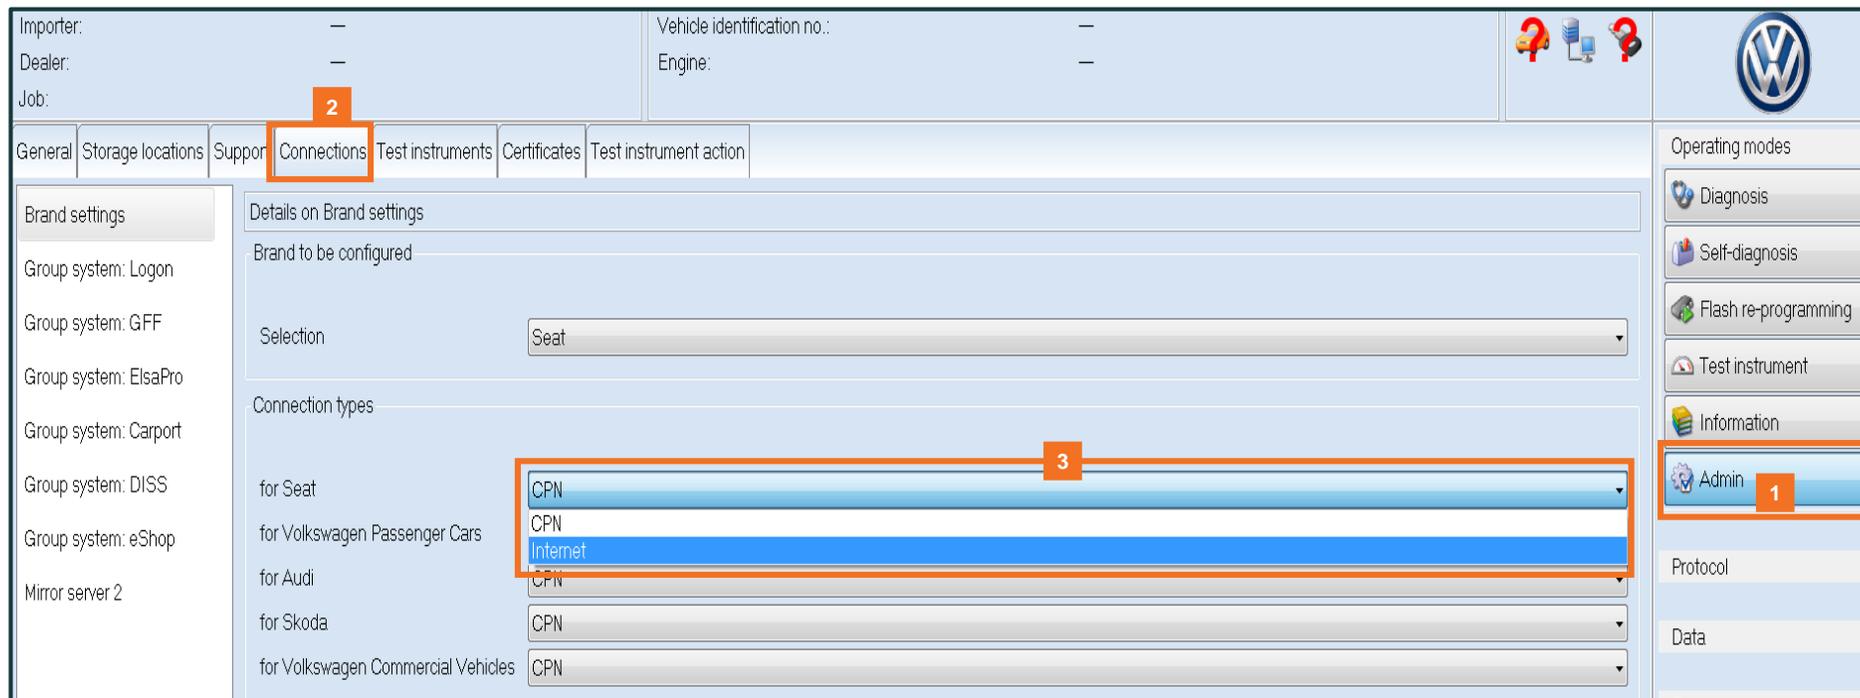

7. You will then see the download continuing. This may take some time depending on your computer and broadband speed.

# ODIS connection to the internet

1. Once ODIS has finished installing, you will need to change the settings on how your ODIS connects to the VAG server.
2. Click on Admin (1)
3. On the top tab bar, select Connections (2)
4. Under each brand select internet from CPN in the drop Down (3)
5. Click Save at the bottom

The screenshot displays the ODIS Admin interface. At the top, there are fields for 'Importer:', 'Dealer:', 'Job:', 'Vehicle identification no.:', and 'Engine:'. Below these is a tab bar with 'Connections' selected and highlighted with an orange box and the number '2'. The main content area shows 'Brand settings' for 'Seat', with a 'Selection' dropdown set to 'Seat'. Under 'Connection types', there are several dropdown menus. The first one, labeled 'for Seat', is open and shows 'CPN' selected, with 'Internet' highlighted in blue. This dropdown is also highlighted with an orange box and the number '3'. On the right side, there is a sidebar with 'Admin' highlighted in blue and marked with an orange box and the number '1'. The sidebar also contains 'Operating modes' (Diagnosis, Self-diagnosis, Flash re-programming, Test instrument, Information) and 'Protocol' and 'Data' sections.

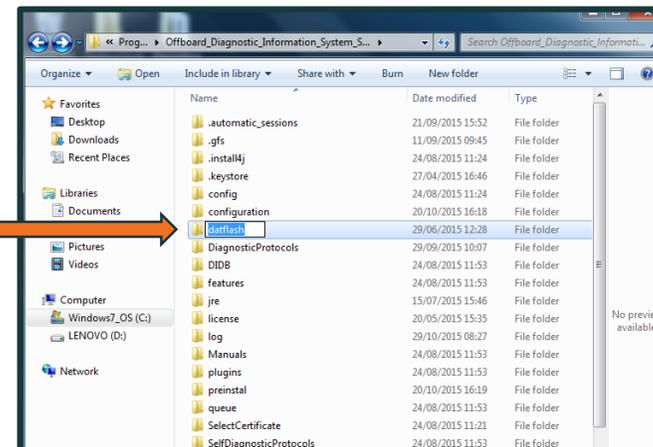

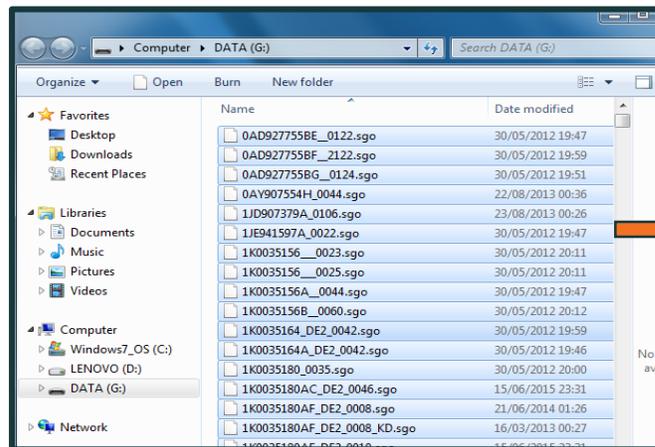

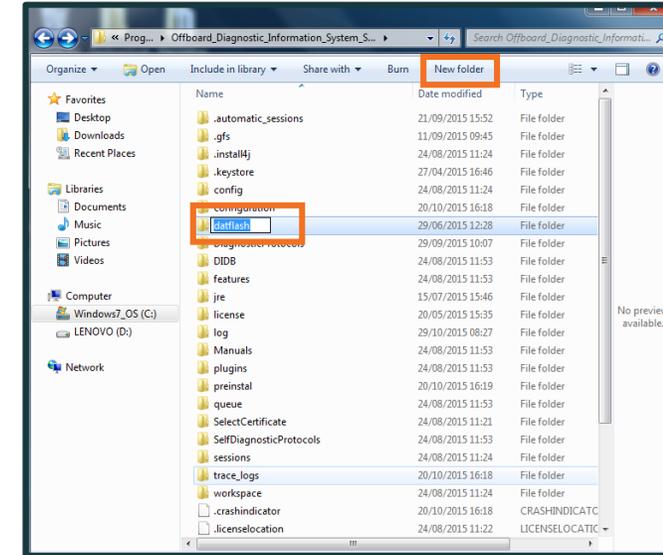

# Flash Programming with DVD purchase

To be able to carry out flash programming you will need to put the vehicle Software onto your PC/Laptop. The software is on the flash data DVDs you received in the pack or downloaded from Erwin.

1. You will need to create a folder to put the files in, called 'datflash'

2. Insert one of the datflash DVDs and open the datflash folder, then drag all the files from the DVD into the datflash folder you created.

# Flash Programming with SW Download

- You can download the vehicle Software from the Offboard Diagnostic Information System Service page on each Erwin site. (This is the same place where you downloaded ODIS (page 12)) On this page, select the Flash data option.
- Again you will need to Save as and save into your ODIS folder on your desktop (page 12)
- The download is once again a 'zip' folder, so it will need to be unzipped (page 13)
- Once the file has been unzipped you will need to move all the files into the datflash folder (page 31)

## Offboard Diagnostic Information System Service

### Download the Offboard Diagnostic Information System software

You have the option of downloading the Offboard Diagnostic Information System software. Please note that downloading via the FTP is enabled in your firewall. The software is broken down into the following packages:

#### Installation instructions:

> UMB\_Quickguide\_V1\_3\_PDF-Paket.zip (52 MB)

#### Software installation:

> OffboardDiagSetup-Service\_3\_0\_3.exe (582 MB)

#### Diagnostic data:

> Postsetup\_ODIS\_Service\_3\_0\_3.zip (12667 MB)

#### Flash data:

> Flashdaten\_Audi\_2016-06-07.zip (8172 MB)

Thank you for using this Autologic Pass-Thru guide.

We hope that you found it useful.
